

Who We Are

Lift Equipt is a privately owned, Pilbara-based materials handling and equipment hire service provider with a reputation for innovative solutions, service excellence and on-time delivery.

Undertaking projects within any organisation brings with it a certain amount of risk, however, if set up correctly from the start, those risks can be managed and mitigated effectively via thorough assessment, experience and professionalism.

We have extensive industry experience in the mining, oil & gas, renewables & energy and construction sectors.

Lift Equipt is the appointed Australian dealer of the world-renowned CVS Ferrari brand and is also the exclusive WA Hyundai dealer. Our comprehensive fleet includes the worlds leading tier-one brands like Magni telehandlers, Merlo, Manitou and JCB.

We are perfectly positioned to deliver safe, innovative and cost-effective solutions, including specialised fleet servicing and maintenance, equipment hire and materials handling.

Our History

Lift Equipt was established in 2006 by owner Brett Johnston. As a qualified heavy diesel mechanic and support specialist Brett saw a gap in the market for a local, trustworthy materials handling company that was based in the Pilbara.

The company was a support first operation which later grew into a full-blown solution for materials handling and equipment hire solutions.

As born and bred locals we knew the limitations when it came to transportation, support and manpower. This led to the establishment of Lift Equipt in Karratha.

Our responsive and agile business model sets us apart from the competition.

Our approach has always been one of constant improvement and we embrace new technology and innovation, which creates a safer smarter and more efficient working environment for all.

We know downtime is the enemy and response time and knowledge are mission-critical, that's why when you call us you can rest assured it will be our top priority.

MATERIALS HANDLING

We are proud to say that we were the first materials handling business established in Karratha and have been delivering materials handling solutions since 94.

OUR CORE VALUES

Our defined set of values and cultural environment enables better communication and engenders our team with a sense of belonging, pride and fulfilment

Our Mission

We empower our customers with the right equipment and knowledge to get the job done safely saving time, money and hassle.

Lift Equipt has always had our customer's best interests at heart, that's why we were the first local materials handling company in the Pilbara. We believe that hard work, customer service and reputation are the bedrock of any successful organisation, and long term value lies in outstanding customer service and support.

Our Vision

To be the North West's most dependable and reputable equipment hire company renowned for materials handling solutions, heavy plant servicing and electrical vehicle support.

With the safety of our customers and staff a priority, our focus is on tier 1 brands that deliver cutting-edge innovation, reliability and safety. Our goal is to improve all the time, and to this end, we are constantly training, mentoring and supporting our team and customers.

We have a relentless desire to provide an enduring legacy and aim to be known as the trailblazers in a green new future.

COLLABORATION

We have the solutions and know how when it comes to heavy lifting equipment hire and maintenance, but you know your business a lot better than we do. Experience has taught us that collaboration and engagement are crucial to our client's success.

COMMITMENT

We are committed to your success and our reputation, which is why we are safety-driven and client obsessed.

SAFETY

Lift Equipt is committed to your safety and the safety of our employees and others. In the workplace safety is not simply viewed as a top priority but rather an ethic that guides every action.

COMMUNITY

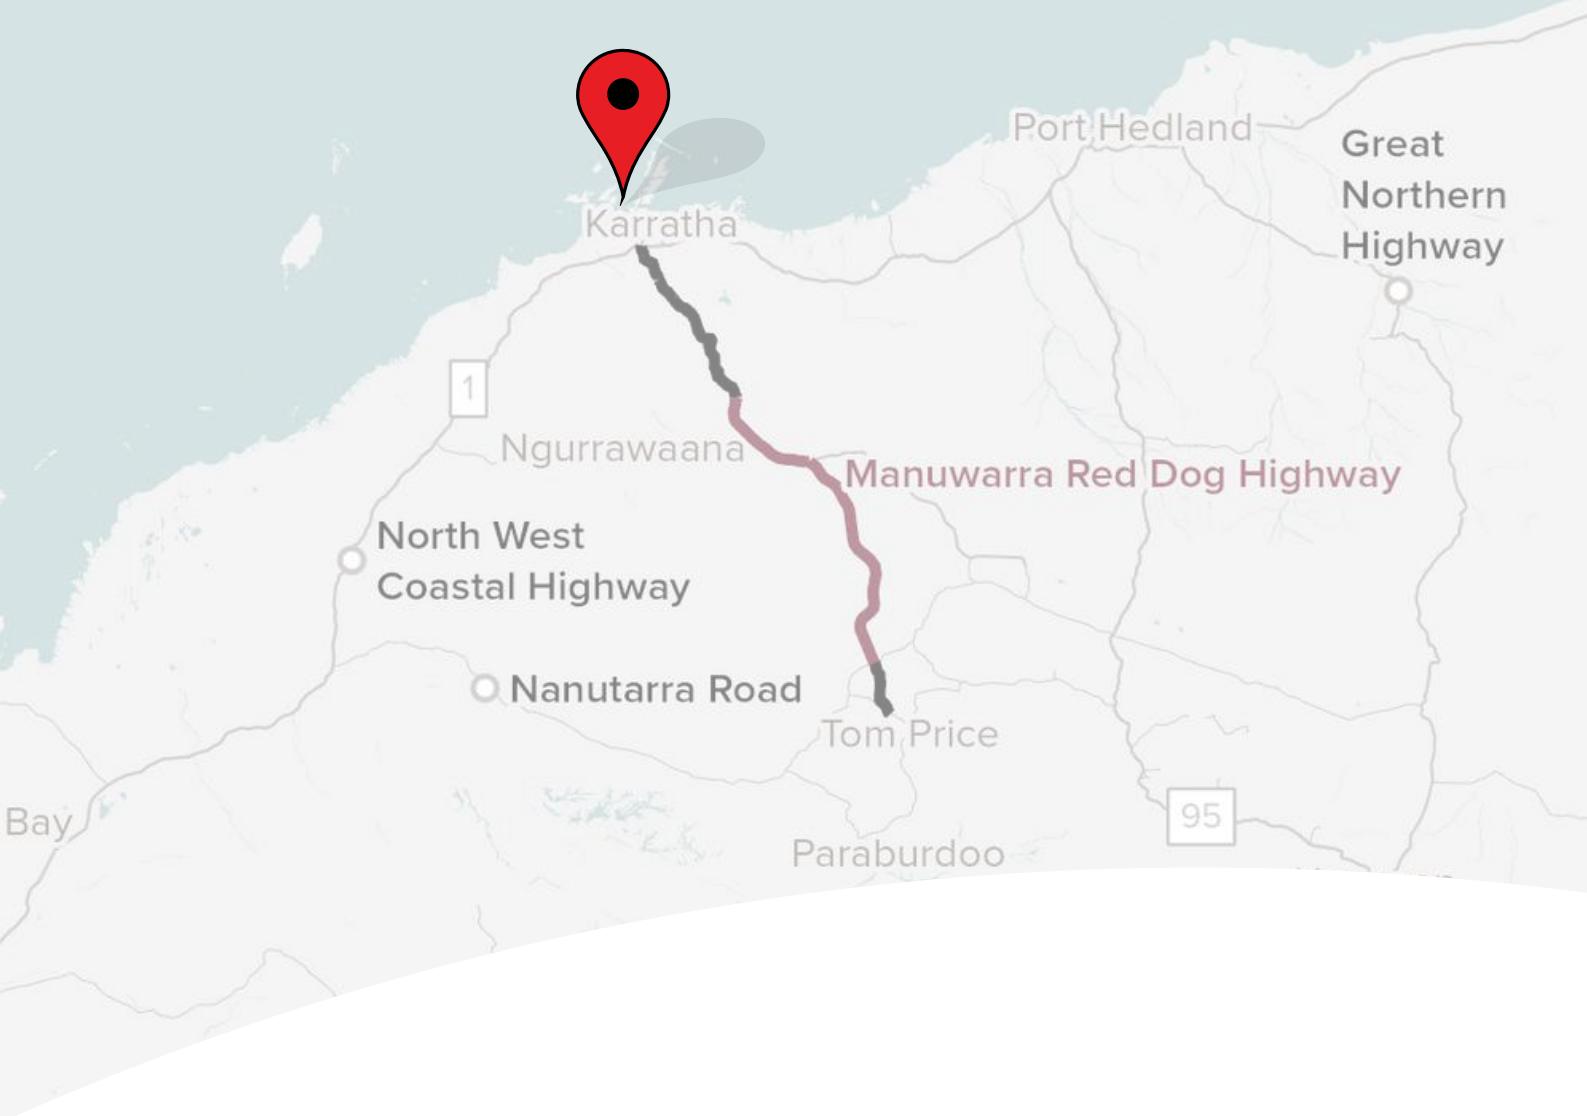

Our founders share a strong commitment to the community and are actively involved in an effort to empower, collaborate, participate and restore.

EMPOWERMENT

We recognise, value and celebrate potential. We encourage and provide training so our team can be the best they can be, driving purpose via motivation, well being and support.

RESPECTED LOCAL WORKFORCE

We have an unwavering commitment to supporting and employing the local workforce and provide and encourage our team and believe it underpins community spirit enabling communities to thrive.

Our diverse team is experienced and motivated, and we pride ourselves on offering indigenous employment opportunities. Lift Equipt have 13% Indigenous employment, varying in levels from General Manager to Apprentice, and employ 100% local as well as 50% female employees in management.

We recognise the Ngarluma People as the traditional custodians of the land on which we live and call home and honour their elders past, present and emerging.

We are extremely grateful and recognise their limitless contributions to our culture, society and history.

OUR TEAM OUR STRENGTH

Lift Equipt has been a contributor to the local economy for decades and believes strongly in participating and supporting the region. The company was established on the premise of local support by locals and has actively recruited and empowered the local community.

The company is actively involved in supporting many local charities, sporting clubs, events and festivals. Economically and socially, the support fosters community spirit, integration and a sense of well being, creating a strong local sense of belonging.

Imagine a machine so capable, so innovative it will forever change the industry's standards for performance and return on investment. State-of-the-art engineering and a strong focus on reliability means the CVS Ferrari outperforms any competitor in its class.

The CVS Ferrari range boasts unmatched reliability, safety and productivity and powerful onboard intelligence making data-driven decisions on the fly a reality.

Innovation, safety and reliability are all hallmarks of the brand. The machine is state of the art in terms of technology and sports a datamatics fleet management solution that delivers industry-leading ROI.

Unmatched structural strength and durability, boasting the worlds most efficient green solution.

Future Proof Your Business

Hyundai is the only name you need to know when it comes to the latest technology, safety and environmental considerations. Since 1987, Hyundai has been using the same advanced engineering and design capabilities in its motor vehicles to develop high-performance diesel, LPG and electric forklifts.

Hyundai is driven by bringing the the latest technology for everyday applications – what is built-in with Hyundai is optional on competitors.

Hyundai high performance forklifts have been designed from the ground up to enhance your workers driver performance and your business productivity

You can be confident that every Hyundai forklift is at the forefront of technology, safety and environmental protection.

POLARIS COMMERCIAL

Since 1954, Polaris has proudly defined, re-defined and then raised the bar again for the Powersports industry

It is reflected in the innovation we bring to the products we design and the experiences we create for all those who play, work and think outside.

Polaris offers vehicle solutions for virtually any job site with a full fleet of purpose-built utility and transport vehicles.

Whether you are looking to move people or goods, the Polaris can be used across many industries and applications.

Hammer®

The Only Forklift Truck You Will Ever Need

The Hammer range of forklifts was engineered specifically for the local Australian environment. Extreme temperature differentials, rugged conditions and unforgiving workplaces.

As a result of extensive R&D, we believe the Hammer is the only forklift truck you will ever need.

A true 4 x 4 ultra-rugged off-road forklift engineered to exceed all expectations.

A wide range is on offer from pallet jacks and electric walkie stackers for warehousing applications, through to the 4 x 4 ultra-rugged offroad edition

Our Hammer range of warehouse pallet jacks and walkie-reach stackers are engineered to last.

Set and Forget technology without the hassle of fossil fuels

The Solar Flare mobile lighting tower solution brings the promise of tomorrow's clean energy solutions to market today. Available in three different configurations to suit industry conditions.

Our units are not only robust and extremely capable but they are quiet, and energy-efficient with zero harmful emissions. No more diesel or the threat of an environmental spill, no more regular diesel servicing or the pesky tagging and testing ritual.

With an endless supply of power from the sun in Australia and the need to reduce our carbon footprint, the Solar Flare R&D team set out to engineer the world's finest multi-purpose solar light tower.

24/7 SUPPORT

Fully equipped and strategically located workshop facilities in Karratha and Perth, backed by a fleet of rapid response vehicles and field service technicians means that Lift Equipt has the capabilities to provide a responsive and complete range of materials handling and equipment hire solutions.

We are a leading force in the delivery of support and service excellence, backed by a modern fleet and industry-leading workshops and technicians.

We are acutely aware that in remote areas the importance of efficient customer support, as well as the need for a well-equipped spare parts division, is mission-critical.

Breakdowns need not be a worry anymore, we are a call away.
