Lift Equipt

RE: Heavy Plant Mechanic

Dear Hiring Manager,

Please consider my application for the Heavy Plant Mechanic position. I believe that my skillset and experience match well with your needs. I have included my resume for your review and look forward to learning more about Lift Equipt.

Myself and partner are both very keen to relocate to get away from the small regional town life, as for us would have better job prospects and not being so isolated being closer to the coast would be amazing.

My unique combination of Industry, skills and work experience has allowed me to develop my strengths in maintaining mechanical equipment, diagnosing equipment malfunctions and repairing mechanical equipment. Because of my varied background, I am a resourceful and creative problem solver. I can always find multiple solutions to even the most complex problems.

I would greatly appreciate your review of my enclosed resume and outlined credentials. I believe that I can be a valuable addition to Lift Equipt and your business goals. At your convenience, I am available for an interview or further discussion. I look forward to your response.

Sincerely,

Michael Carter
