

Bobcat[®]

One Tough Animal.

DIESEL FORKLIFTS

Diesel 2.0 to 3.5 ton Capacity, Euro Stage V D20NXP / D25NXP / D30NXP / D33NXP / D35NXP

ONE TOUGH ANIMAL

OUR MISSION

We empower operators to accomplish more, while working in the toughest conditions and tightest situations. When our customers have the will, we provide the way.

BOBCAT'S HISTORY

In 1958, Melroe Manufacturing Company introduced a compact front-end loader that evolved quickly into the M400, the world's first true skid steer loader. The company soon adopted what became the world-famous 'Bobcat' brand – and its success paved the way for the global compact equipment industry we know today.

YEARS OF EXPERIENCE

In 2021, Bobcat expanded its portfolio by acquiring Bobcat Industrial Vehicle. This specialist in material handling equipment constructed its first forklift in 1968 and went on to establish a global presence with 400 dealers in 93 countries.

BOBCAT TODAY

Bobcat is expanding its portfolio with the addition of forklifts and reach trucks for the material handling industry. Offering a comprehensive line-up that will meet all your intralogistics needs. Bobcat forklifts and reach trucks are produced in our factory in Korea and China, while our premium quality warehouse equipment is made in Germany.

EXPERIENCE THE FULLY ENHANCED VALUE OF NXP SERIES

► EVERYTHING HAS BEEN CHANGED. NEW NXP, THE GAME CHANGER.

The new NXP series offering outstanding power, durability and operator comfort realizes customer satisfaction through providing the best productivity and convenience in various industrial applications.

► **STYLISH DESIGN**
By applying the Bobcat new design, it represents the Bobcat's unique exterior.

► **POWERFUL PERFORMANCE**
The combination of powerful engine, transmission, and drive axle maximizes the performance and gives best productivity in various work applications.

P 6-7

► **ALL-DAY COMFORT**
The operator compartment is more spacious and ergonomically designed to reduce driver's fatigue. It enables more comfort and safe operation.

P 10-11

► **MAXIMUM UPTIME**
The robust components ensure durability and reliability. All primary components are easily accessible, making maintenance simple and efficient.

P 13

POWERFUL PERFORMANCE

D25NXP Stage V
Kubota Diesel V2403-CR
(2.4L, 4 Cylinder, 42.6kW)

ENGINE

Kubota V2403-CR Diesel engine makes powerful performance and generating capacity by the technology of key temperature control. It also increase the Ash cleaning and Engine Oil change interval, so give the value to customer TCO optimization.

HIGH RESIDUAL CAPACITY

NXP can lift about 10% more weight at the same height with the aux weight structure and powerful hydraulic system. (* Single pneumatic tire truck) It is suitable for work areas with high rack height.

POWERFUL GRADEABILITY

With the powerful engine, transaxle and aux weight structure, gradeability is maximized and makes it easy to go up the 24% steep slopes.
[Max Gradeability @1.6km/h, Laden]
D30NXP 3.0t capacity truck
- Stage V : 23%

HIGH SPEED OF LIFTING / LOWERING

Gear pump and mast regulator valve are optimized to increase the lifting / lowering speed and it makes operation more productive.

DURABILITY GUARANTEED

▶ ADVANCED DESIGN FOR YOU AND YOUR OPERATION

The NXP Series is equipped with advanced design to reduce noise, vibration, heat, dust - inflow, ensures durability of major components. With the improved design and additional option, NXP guarantees durability in harsh operating conditions.

▶ AUX WEIGHT

Many troubles are caused by vibration. In NX series, the engine is mounted on the Aux. weights to effectively absorb vibration and suppress noise. It extends parts durability and prevents durability decline and oil leakage.

▶ OPTIMIZED AIR FLOW

Air flow is optimized by improving muffler position, clearance between parts and enlarging the inner space of counter weight. It streamlines the air flow and increases the cooling performance.

▶ ROBUST MAST

Reinforcement rib (J channel) of mast beam improves mast stiffness and lateral stability. Six roller carriage gives superior strength and durability for wider and longer loads.

▶ ANTI DUST DESIGN

The bottom-sealed overhead guard absolutely eliminates the dust inflow from the bottom side.

▶ DUAL ELEMENTS AIR CLEANER

Air cleaner with dual element filter protects engine against dust effectively, ensuring the durability of engine. It is equipped as standard in NX Plus model.

▶ PRE CLEANER (OPTION)

In a dusty environment, pre-cleaner removes dust in advance and extends lifecycle of air cleaner effectively.

▶ MORE SPACIOUS LEG ROOM
The knee clearance is widened and tilt cylinder is removed on the floor plate, it allows more spacious leg room. Accel and brake pedal clearance and angle are improved to reduce ankle fatigue.

COMFORT

EXCELLENT OPERATOR COMFORT

▶ IMPROVED FRONT / REAR VISIBILITY

The improvement of FCU column height and counter weight design has increased front and rear visibility and enables safer driving.

▶ WIDE MAST VISIBILITY

Neatly arranged hoses and chains provide wide visibility.

▶ STEERING COLUMN & INSTRUMENT PANEL OFFSET

Steering column is shifted to the left for more comfortable posture. Instrument panel is also shifted to the right for easier viewing.

▶ ADJUSTABLE TILT STEERING COLUMN

The steering column can be adjusted over a wide range of angles, allowing optimal posture for operator.

▶ COMPACT STEERING WHEEL

Compact steering wheel offers steering convenience and reduces operator fatigue.

▶ INTEGRATED LAMP SWITCH

The turn signal and head lamp switches are integrated for convenient operation.

▶ LED LAMP

Long-lasting, high-brightness LED lights is equipped as standard feature.

▶ PANORAMIC MIRROR

The panoramic mirror offers wide rear view and greatly improves driving safety.

▶ EXTENDED STEERING ANGLE

Turning radius is improved by increasing the steering angle. It brings more maneuverability in small space.

BUILT TO LAST

▶ ENHANCED SAFETY

NXP helps safer operation. NXP is equipped with various safety features. It prevents unexpected accidents, ensuring safety of employees.

THERE'S NO TIME FOR DOWNTIME. STAND UP TO EVERY TASK THAT COMES YOUR WAY. DAY AFTER DAY.

Large Entry Grip Bar
The entry grip bar is larger, so it is easy to grip and allows safer ride on / off.

Rearranging of Tilt Cylinder
Tilt cylinder is removed on the floor plate, preventing operator from falling over.

Anti-Skid Step Plate
The wider step plate prevents slipping and it also helps safer ride on / off.

▶ OSS (OPERATOR SENSING SYSTEM)

OSS function avoids any unintended truck movements when the operator is not seated.

- ① Warning when operator leaves the seat without parking brake.
- ② Warning when operator drives without seatbelt fastened.
- ③ Automatically stop the vehicle when operator leaves the seat.

▶ ISO3691 HYD. LOCKING VALVE

If operator leaves or turns-off the truck, this system will automatically lock the hydraulic function, not allowing lifting, tilting, lowering.

▶ JUNCTION BOX (FOR DIESEL STAGE V)

Fuse and relay are concentrated for easy maintenance.

Wide Open Hood Angle
It is easy to access engine room by enlarging the hood open angle.

Hood Locking Cylinder
It helps easy maintenance and prevents safety accident.

Removable Side Cover
By applying knob bolt, it can be disassembled by hand.
